

Bright and energy-efficient LED refrigerated case lighting can significantly enhance product visibility and appeal. By illuminating fresh produce, meats, seafoods, and prepared foods with vibrant, true color light, this not only creates an inviting atmosphere but also improves the shopping experience for customers. Plus, with the added benefit of energy efficiency, it can reduce operational costs while maintaining optimal visually appealing display conditions. It's a smart investment for any commercial refrigeration space!

# MAGNIBLEND REFRIGERATION

MAGNILUMEN PLUS<sup>+</sup>

MagniBlend Refrigeration LED Lighting not only Improves a shopping experience it creates consistent uniformity, minimal glare and eliminates dark spots. Shopping Markets and retailers benefit with eco-friendly, lower maintenance, and costs due to lower power consumption.
