

Installation

WARNING:

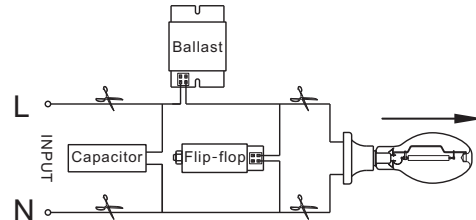

Switch off the power supply before installation and let the electrician or the person who has the same ability to install the lamp.

Step 1

Remove or bypass the Ballast, Capacitor and Flip-flop (if existing).

Remove HPS or MHL.

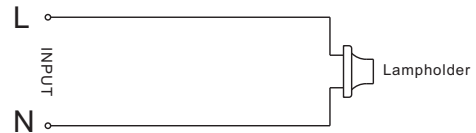

Note the input voltage to be appropriate.

Step 2

Reconnect directly to existing lampholder.

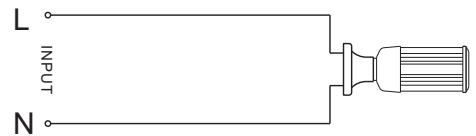

Note the input voltage to be appropriate.

Step 3

Install new LED corn light.

Note the input voltage to be appropriate.
